

STAINLESS STEEL POLISHER

This is an exciting opportunity to be part of our growing organisation working alongside our polishing and machine shop teams.

Axiom Process is an hygienic stainless steel fabricator specialising in the design and manufacture of membrane filtration systems, process components and tube and pipe fittings. The company which currently employs approximately 55 personnel, operates from a 30,000 ft² factory based in Hendy, near Swansea provides engineering expertise primarily to the pharmaceutical, food and beverage industries.

This position offers good growth prospects and the opportunity to learn:

- A variety of techniques using hand operated air tools and polishing machinery.
- To produce high surface finishes to customers.

Qualities required:

- A working understanding of abrasive wheels and the confidence and ability to work unsupervised.
- Ability to use power tools is also important.
- Attention to detail and pride in work carried out is critical.
- Knowledge of surface finishes, metal working and previous workshop experience would be an advantage.
- Flexible, organised, ordered and self-disciplined.

Duties would include:

- Assisting with the polishing operation
- Cleaning and keeping the polishing shop tidy.
