

Site / Ground Maintenance Person

Axiom Process specialises in the fabrication and supply of stainless steel pipework and membrane separation systems, for the pharmaceutical, food and beverage, dairy, chemical, cosmetic and toiletries industries. Currently employing around 60 personnel and manufacturing from a 30,000 ft² facility based on the Hendy Industrial Estate, Swansea. This is an exciting opportunity to be part of a growing organisation with the objective to be number one in its market.

Axiom Process is currently looking to recruit a Site/Grounds Maintenance Person.

Skills and Attributes Required:

To be self-motivated and able to work with a minimum of supervision, and to demanding timescales.
Good knowledge of health and safety legislation and environmental protection requirements
Experience in Building & Grounds maintenance
Plan and deliver the maintenance of the site with help from an assistant.
Ability to improve operations and interest in continuous improvement and Lean.
Monitoring maintenance costs and budgets.
Looking after site services (not just machinery)
Liaise with suppliers
Previous experience in manufacturing or production engineering would be an advantage
Positive outlook important, and gets on well with people.
Computer literate
Good level of housekeeping
Practical ability and experience more important than paper qualifications.
To be able to find the root cause to machine break down
Compressor and extraction knowledge would be an advantage
PAT testing experience an advantage

Key Responsibilities Include:

1. The main purpose of the job will be to ensure that the building and machinery is maintained to a very high standard
2. Site Security
3. Provide mechanical support all for machine and equipment breakdowns.
4. Carry out service and maintenance for plant and equipment.
5. Provide technical support to manufacturing and associated departments.
6. Assist in planning and delivering the maintenance of the site.
7. Maximise machine & equipment utilisation by the reduction of breakdowns.
8. Carry out safety inspections; including identifying, reporting, and repairing defects on all equipment.
9. To keep a detailed and visible record of all items which you are requested to maintain on the site, and to inform clearly when these are completed

Salary - Dependent on experience
