

PROJECT ENGINEER

This is an exciting opportunity to be part of our growing organisation working within our busy engineering Projects department.

Axiom Process specialises in the fabrication and supply of stainless steel pipework and membrane separation systems, for the pharmaceutical, food and beverage, dairy, chemical, cosmetic and toiletries industries. Currently employing approximately 70 personnel and manufacturing from a 30,000 ft² facility based on the Hendy Industrial Estate, Swansea. This is an exciting opportunity to be part of a growing organisation with the objective to be number one in its market.

Knowledge and experience

Qualified to degree level in an engineering or scientific discipline experience of working in process manufacturing and being involved in the design or specification of process equipment would be beneficial. In particular some experience with Thermo or Fluid dynamics as well as instrumentation and control would be an advantage. Must have the ability to read and understand drawings. Competency with compilation of documentation is critical, as are excellent administrative and organisational skills. Must be fully conversant with Microsoft Office Suite.

Duties

- Design of process flow diagrams, defining instrumentation and control requirements
- Sourcing and procuring fluids handling equipment and materials for plant construction
- Supervision of construction of plant in workshops and liaison with workshop personnel
- Overall, manage a project through from inception to design, manufacture, installation & commissioning and acceptance on customer's product, often on the customers site
- Carrying out risk assessments and other safety related studies
- Liaison with customers to discuss projects in progress
- Preparation of cost estimates for sales quotations, calculations involving fluid or thermo dynamics
- Conducting pilot plant trials at Swansea and on the customers site
- Preparation of pilot plant trial reports
- Travel is involved; regularly in the UK, occasionally overseas
- Driving Licence Essential

Permanent Position

Salary dependent on relevant experience

5 weeks holiday per annum plus bank holidays
